

# PURE TASTE, AUTHENTIC CAMBODIAN MANGO

Cambodia's landscape includes diverse soil types, with alluvial soil found in the broad inland basins, particularly around the Mekong and Tonle Sap rivers. These areas, along with the basaltic soils in confined hilly areas, support the growth of various crops and fruit trees, most notably the renowned *Keo Romeat* mango variety.

## FULL RANGE OF HEALTHY CHOICES

All made from carefully selected fresh mango.

### DRIED MANGO WITH NO SUGAR ADDED

Experience the authentic aroma and flavor of real fruit. Our product is entirely natural, containing no added sugars or preservatives. The natural sweetness and chewy texture of dried fruit can satisfy a sweet craving while providing beneficial nutrients.

### DRIED MANGO – LOW SUGAR

A chewy tropical classic. Our low-sugar process lets the vibrant, authentic taste of Cambodian fruits shine through.

The story of Cambodian fruits, cashews, and Misota is more than a tale of agri-food project. It's a testament to the power of a business model rooted in love and community. We take great pride in fostering connections with local farmers and communities. We invite you to express your interest in our range of products, including our current selection of dried fruits and chocolate-coated cashew nuts, or to explore opportunities for private labeling (OEM). We are eager to discuss potential business collaborations and work together towards mutual growth.

*Thanks for your interest.*

## OUR VALUES

- Our operations adhere to HACCP, Halal, Kosher, and BRCGS standards, ensuring compliance with industry regulations.
- We strive to tailor our products and packaging to meet the specific needs of our customers.
- Our top-selling product is highly popular in Japan, Australia, South Korea, and the United States.
- Rich in taste and packed with nutrients
